INFORMATION

INSTRUCTIONS

1. Mount one hinge approximately 6" – 8" from the top of the gate and the second 6" – 8" from the bottom (Fig. 1).
2. Place the hinge plates (leaf) on the gatepost and the wings on the gate (Fig. 1).
3. Mark mounting holes and pre-drill (optional).
4. Attach the hinge (Secure the hinge to the post first, then to the gate using the provided fasteners).
5. Ensure hinge wings align and gate swings freely.
6. Check alignment and make minor adjustments as necessary.
7. Test gate operation.
